Dawn Patrol Surf Camp

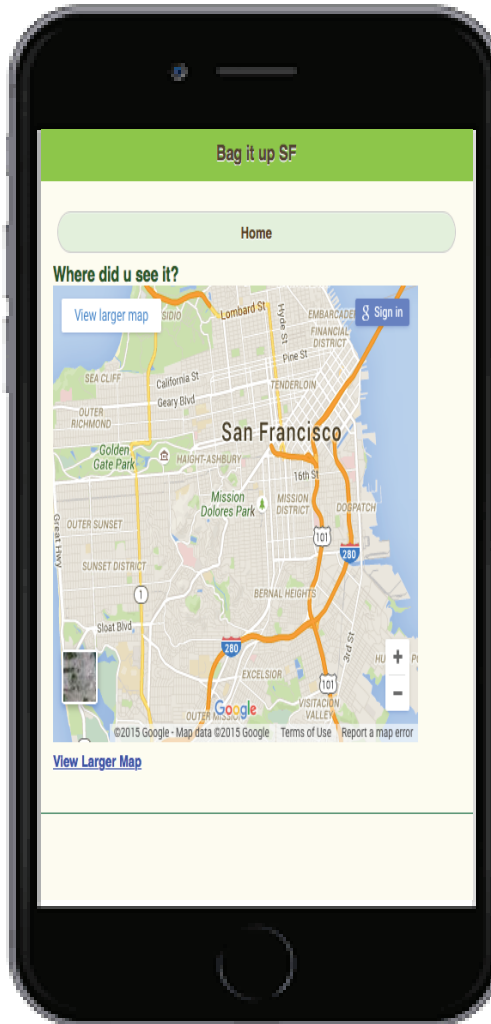

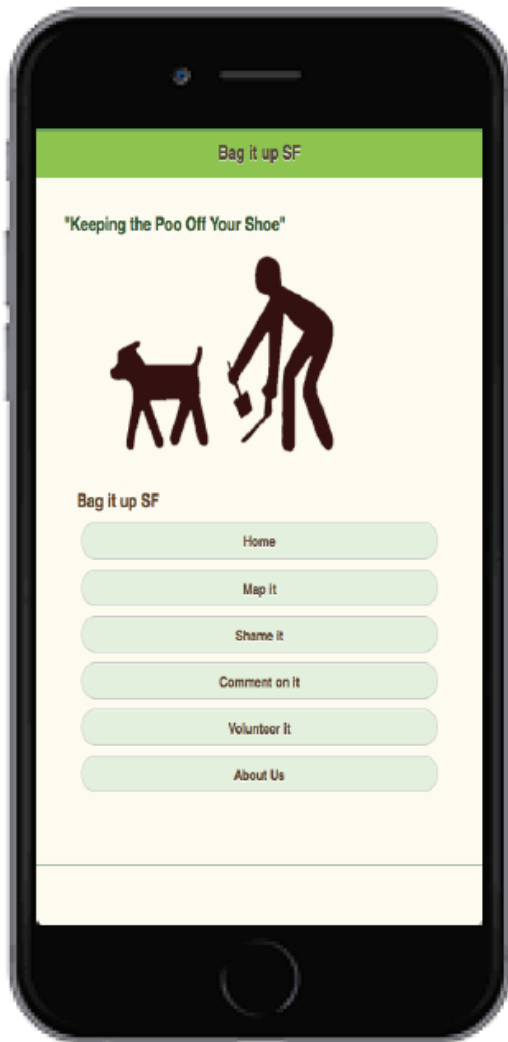

## WNM 619 MS: Advanced Digital Imaging

Stitched panoramic photo of room without people. Illustrated all people into the image.

Photography/illustration

Empty house

## WNM 663 MS: Adv. topics in Motion graphics

This Mobile web page was designed to help keep the poo off the street of San Francisco. By shaming people that don't pick up their dogs poo. Mapping the poo so the next person doesn't step on it or some good samaritan picks it up also helps locate where a majority of the poo and poo bag stations can be added.

SF Surfer

## WNM 611 MS: Sound Specific

This was a sound exercise that matches audio to an existing video. I chose Lego matrix.

Sound Engineering  
Lego Matrix

## FA 612 MS: Silkscreen

This is a screenprint of I hate LA. Although my hatred for LA is fading but at the time I made this print LA was my nemesis. I wanted to use the same typeface as I love NY. But use a bit of sarcasm by making the H8 look like a heart.

### Printmaking

I h8 LA

CEO of the group  
Swag inc.

## GLA 610 Bal. Creativity & Profitability

CEO of the group SWAG inc. In charge of company made sure everyone was doing there fair share of work and progress was where it needed to be. Main speaker of the company.

## FASCU 626 MS: Neon

Neon Jellyfish found that the luminance of the deep sea jellyfish is very similar to neon lighting. Melted, welded and bombarded glass to form this creature of the night.

### Neon sculpture

Neon Jelly

## Final Thesis Project

This app Eco Timmy is an interactive storybook game for kids ages 3-5. The app will teach them how to reuse, reduce, and recycle while also learning to read. The fun and entertaining illustrated characters, videos, and interactive scenes teach them valuable ways to help the environment. This app is like no other because the kid feels as though they have a choice in what happens in the interactive scenes. By combining video and interactive scenes the kid can choose their own path.
